PROFILE

Front End Developer with 10+ years building responsive, production-ready web applications in React, Vue, and Angular. Specializes in translating complex designs into pixel-perfect interfaces and establishing scalable component systems. Known for mentoring teams on UI/UX best practices and delivering polished results across consumer-facing and enterprise platforms.

TECHNICAL SKILLS

Languages	HTML5, CSS3, JavaScript, TypeScript, Java
Frameworks & Libraries	React, Vue.js, Angular
UI & Design	Figma, Bootstrap, UX/UI Design, Responsive Design, Component Systems
Platforms & Tools	Mendix, GitHub, Git

PROJECTS

SaaS Dashboard - <https://mdsaasdashboard.netlify.app/>

- Production-ready analytics dashboard built with React and TypeScript, demonstrating component-driven architecture, responsive design, and data visualization.

EXPERIENCE

Lead Front End Developer

2020 – Present

ClearWave Software

- Serve as lead front-end developer, overseeing the design and implementation of responsive, production-ready applications across multiple platforms including React, Vue, and Mendix.
- Translate storyboards and wireframes into dynamic, functional user interfaces aligned with business and user requirements.
- Collaborate with cross-functional teams—designers, backend developers, and project managers—to deliver high-quality, scalable software solutions.
- Provide mentorship on UI/UX best practices, design consistency, and component reusability across projects.
- Gained hands-on backend development experience to support full-stack project delivery.
- Delivered applications serving both consumer-facing and enterprise infrastructure clients across varied industries.

Application UI Developer

2017 – 2020

Clear Wave Software

- Collaborated within a cross-functional team to design, build, and deploy production-ready applications from concept to launch.
- Developed user interfaces optimized for usability, performance, and accessibility across web and mobile platforms.
- Partnered with backend engineers to ensure seamless data integration, intuitive workflows, and responsive layouts.
- Participated in end-to-end development including planning, wireframing, front-end coding, testing, and production deployment.
- Built scalable, maintainable UI components using modern frameworks and design principles.

- Collaborated with creative and production teams to conceptualize and develop storyboards for video and digital content.
- Ensured consistent brand messaging and visual storytelling across all media deliverables.
- Laid the foundation for a transition into front-end development through hands-on design systems work.

EDUCATION

Bachelor of Science — Communication & Advertising

Lee University

CERTIFICATIONS

Google via Coursera

- Google UX Design Professional Certificate
- Build Dynamic User Interfaces (UI) for Websites
- Design a User Experience for Social Good & Prepare for Jobs
- Foundations of User Experience (UX) Design
- Create High-Fidelity Designs and Prototypes in Figma
- Conduct UX Research and Test Early Concepts
- Build Wireframes and Low-Fidelity Prototypes
- Start the UX Design Process: Empathize, Define, and Ideate

Meta via Coursera

- Advanced React
- HTML and CSS in Depth
- Version Control
- Programming with JavaScript
- React Basics
- Introduction to Front-End Development
